[CHED-44] Create Resume in database	1d		
[CHED-45] Update Resume in database	5h	44	
[CHED-58] Refactor code	1d 5h	40, 41, 42	*

We started with the dependent tasks (CHED-40 & CHED-41). Knowing that CHED-42 and CHED-58 relied on these early tasks, we completed these tasks ahead of time. This allowed the last days of the sprint to be focused on combining them during CHED-42. CHED-58 was a task was completed on CHED-40 and CHED-41 synchronously with CHED-42.

CHED-32, CHED-44, & CHED-45 allocated time across the assignees to have a work session together so that these tasks could be completed on time.
