

Burndown Notes by Date

Date	Notes
February 28 th – March 2 nd	Because of other assignments due during this time, our team was unable to start on the sprint until March 2 nd .
March 2 nd	Sprint planning meeting; Added stories & their assignees to the sprint
March 2 nd – March 8 th	Little progress was made due to team members having assignments in other classes and/or attending DeltaHacks from March 6-8th.
March 8 th	Spike due to increasing story estimate for CHED-15. This change was made due to discovering difficulties during the completion of the story.
March 9 th – March 12 th	Stories were completed and merged; progress being shown on the chart.
March 12 th	Spike due to increasing story estimate for CHED-86. This change was made due to discovering difficulties during the completion of the story. Sprint complete!

During **sprint 2**, our team assigned **60** story points which we completed successfully. As we moved into **sprint 3**, we decreased our velocity to **48** story points due to A2 being due during it. We wanted to ensure everyone had enough time to work on A2 and other assignments so we tried to keep the stories light and small.

All **48** story points assigned were successfully completed by end of sprint.
