Interface Database	
• Create and login as a user given a username and password • Creates and stores resumes and resume templates • Deletes saved resumes • Retrieve a user's saved resume	• User • Resume

Software Architecture Diagram

Three-Tiered Architecture

Since the MVC Architecture isn't used in our project (i.e. We're using a 3 tier architecture design), we've provided the following link for more information to support the 3 tier architecture.

Link: https://www.ibm.com/cloud/learn/three-tier-architecture
